

Method: **Interactive hunt**

In the University of Humanities and Economics (AHE), Kamila Witerska has been trying out the Interactive hunt method with students taking her course on Drama.

Here are the steps Kamila takes with the class in applying this method:

- Kamila prepared an interactive hunt “Drama” in the Actionbound app.
- The students are then divided into groups, they download the Actionbound app and scan the QR code of the hunt.
- The groups then carry out the necessary tasks to accomplish the hunt:
 - Quiz
 - Taking a photo of a sculpture
 - Making a short film of an exercise
- Kamila presents the final scores and results of work done during the hunt.
